UK Joint Operations Picture (JOP) Overview

Group Captain Andrew S Kirkpatrick BSc RAF

UK JOP Implementation Team Leader

Joint Operations Picture - Definition

"The total set of shared information on a particular operation, or Joint Operations Area, available through a secure information environment on CIS networks to support situational awareness and decision-making by UK commanders, and to facilitate information sharing with allies and partners."

2* Endorsed Policy 15 Jan 03

Original JOP IOC Deliverables

- Virtual Knowledge Bases
- Recognised Maritime Picture (RMP)
- Recognised Air Picture (RAP)
- Recognised Land Picture (RLP)
- Recognised Theatre Logistics Picture (RTLP)

Actual Progress To Date

- ~~VKBs~~ JOPWeb
  - + Common look & feel portals with cross-system web browsing
- RMP
- RAP/Air Situation Display (ASD)
  - + RAP available to all HQs (via RAFCCIS)
  - + ASD (JOCS/RNCSS)
- RLP
- RTLP

Plus …

An initial Joint Intelligence Picture (JIP)

An initial Recognised Environmental Picture (REP)

A cross-system chat capability

ADOCS demonstrated and used for BM/JF/TST

JOP STATUS

As at 10 Dec 04

COMMANDERS' CONTRIBUTIONS		
JOPWeb (Incl x-system capability)	G	
JIP	G	Management processes still being developed
RMP	G	
RAP / ASD	A →	
RLP	G	
RTLP	G	
REP	G	
COLLABORATIVE TOOLS		
CHAT (Sametime & NetMeeting)	G	Good uptake (JOCS/RNCSS NetMeeting inop)
ADOCS	G	Enthusiastic uptake

Key Findings

- JOPWeb significantly enhanced shared situational awareness
- Increased levels of collaboration across Force
- Commanders noticed more robust and effective decision-making
- Overall effectiveness improved with the use of the JOP
- The concept is viable, with some elements of capability ready to be deployed to an operational theatre

Key Findings

But

- **Approach to security & accreditation currently limiting development**
- **IM / IX SOPs require attention**
- **Concerns over usability of picture creation/management tools and coherence of processes**
- **Robustness not yet evident across all areas**

Key Recommendations (1)

- Develop a Network approach to Security & Accreditation
- Deliver a more robust interoperability solution
- Refine IM / IX directives / SOPs with PJHQ/JFHQ J3 lead
- Promote usability of key picture creation/management tools & processes

Key Recommendations (2)

- Improve individual, specialist & team training
- Provide JOCS hardware for key Land, Air & Logs formations
- Campaign Planning and TST/Joint Fires/Battlespace Management applications as Quick Wins
- Make available high quality peripherals to support visualisation
- Migrate elements of the JOP to current Ops

Milestone Events for 05

- NITEworks LTP 05 theme – Apr 05
- Ex JOINT VENTURE 05 - May 05
- NITEworks JIP theme – Q2 to Q3 05
- JOP Deployment to an Operational Theatre – Q3 05
- Ex ARRCADE FUSION 05 – Oct 05
- Ex NORDIC SHIELD (Ex NS05) – Nov/Dec 05

REAR AREA SECURITY
FROM COMARRC:
MY FOCUS FOR THE NEXT 24 HOURS IS AS FOLLOWS:
WE MUST KEEP UP THE TEMPO IN THE SOUTH IN ORDER TO ACHIEVE THE INTENDED EFFECT OF ISOLATING THE 2SOG BY CUTTING THEIR LINES OF COMMUNICATION. 1 (UK) ARMD DIV' S ADVANCE TOWARDS COPPER WILL BE KEY. I AM KEEN TO INVESTIGATE THE OPTIONS TO DRIVE FURTHER SOUTH FROM THE NORTHERN AXIS, AND THE POSSIBLE USE OF 16 (UK) AA BDE'S AH TO ACHIEVE A DECISIVE EFFECT AS SOON AS POSSIBLE. IN CONJUNCTION WITH THESE KINETIC OPERATIONS, I WOULD LIKE TO INCREASE IO ACTIVITY AGAINST THE ZG FORCES AND LEADERSHIP.
THERE REMAINS A CHANCE THAT THE ENEMY WILL ATTEMPT TO ACHIEVE A STRATEGIC SUCCESS THROUGH WITH A LAST THROW OF THE DICE USING THE RGC. BAGHDAD IS A POTENTIAL TARGET, AND WE MUST ENSURE THAT THE CAPITAL CITY REMAINS SECURE.
WHILE WE PROSECUTE THE FINAL STAGES OF THE COMBAT OPERATIONS, WE MUST CONTINUE PLANNING FOR THE PERIOD POST MAJOR COMBAT OPERATIONS AND A TRANSITION AND ENSURE THAT WE ARE WELL BALANCED FOR A CESSATION OF HOSTILITIES.
